

Since 1970, Metron Eledyne has been a leading global supplier of Fire Pump Control Systems, custom control products, and specialised electrical and electronic solutions.

We serve the worldwide market covering commercial, residential, industrial premises and also specialising in Oil, Gas and Petrochemical Field.

With a new modern manufacturing facility based in Grantham, England the Company also has its own metal fabrication facility enabling it to provide customers with the total solution to their requirements.

Our highly experienced engineering staff are experts in Fire Pump Control Systems, Metal Fabrication, Control System Design, customised packages, microprocessor electrical control logic and new product development, enabling them to work with clients from specification through design, manufacture, installation, commissioning and on-going service and maintenance.

FIRE PUMP CONTROLLERS

**FD4e STANDARD NEMA 2
FM APPROVED, UL LISTED**

and much more...

THE RANGE

ELECTRIC MOTOR CONTROLLERS, FM APPROVED AND UL LISTED

MP300, DIRECT ON LINE, OPTIONAL MTS
FM APPROVED, UL LISTED

MP430, STAR-DELTA, OPTIONAL MTS
(OPEN OR CLOSED TRANSITION)
FM APPROVED, UL LISTED

FD4e, DIESEL
FM APPROVED, UL LISTED

MP600, HIGH VOLTAGE DIRECT ON LINE
FM APPROVED, UL LISTED

OTHER STARTING METHODS AVAILABLE:

- MP400, PRIMARY RESISTANCE
- MP420, PART WINDING
- MP450, AUTOTRANSFORMER
- MP700, SOLID STATE SOFT START
- MP800, VARIABLE FREQUENCY

LPC / LPS / EN12845 DIESEL AND ELECTRIC MOTOR CONTROLLERS

LPC/EN12845, IP54 DIESEL
